A+ **A+**

Incorporates an advanced Bluebrain control

Ultimate, flexible and intelligent control

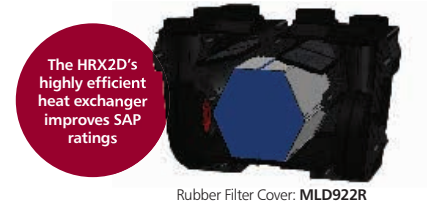

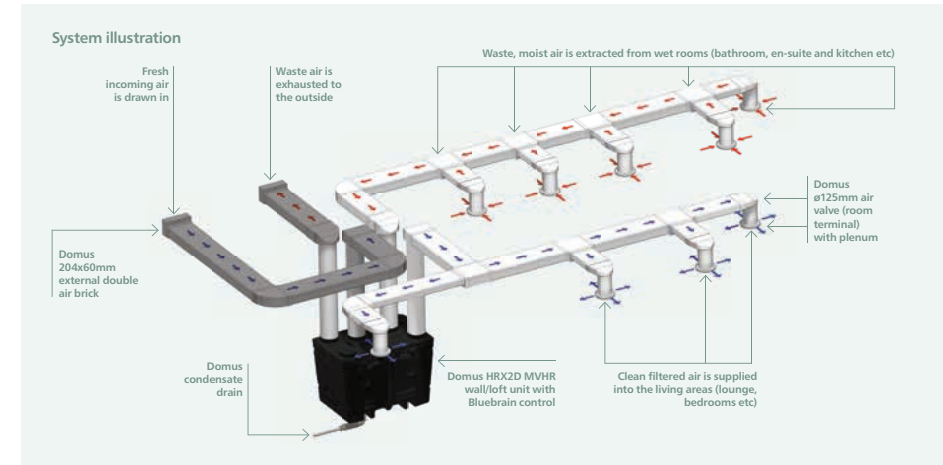

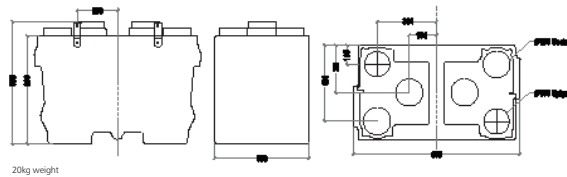

Straight forward, accurate commissioning

SEE PAGE 16

Ideal for larger developments, the HRX2D is a highly efficient and intelligent MVHR unit, which is quick and easy to install and operate.

- Extremely low Specific Fan Power (SFP) down to 0.57 W/(l/s)
- Bluebrain control optimises the unit's functionality and allows for quick and easy commissioning through simple speed adjustment buttons
- High heat exchange efficiency up to 94%
- Very quiet in operation, down to 35dB(A)
- Effectively extracts up to 113l/s at 150 Pa
- 20kg
